

KMR_Declaration_Final

Blockchain-Anchored Declaration of the KMR (Kimura) Project Name

For public timestamp and identity proof

Declaration of Originality, Use, and Ownership — "Kimura" / "KMR"

I, the undersigned, hereby declare the following:

1. Ownership and authorship

The name **Kimura** and the abbreviation **KMR** ("Kay Em Ar") are original creations entirely conceived and developed by me. They represent a technical-creative identity used for:

- software development
- electronics and prototyping
- digital content (devlogs, showcases)
- personal online presence

I confirm that, to the best of my knowledge, these names have been checked for availability through trademark databases and online searches to minimize conflicts.

3. Scope and intention

This name and design are intended to operate:

- primarily within the European Union, with aspirations for international presence
 - across digital platforms (GitHub, website, Discord, YouTube, TikTok, etc.)
 - as a personal brand for long-term technical and public-facing initiatives
-

4. Timestamp and public proof

This document is timestamped via [OpenTimestamps.org](https://opentimestamps.org/), with hash immutability anchored to the Bitcoin blockchain.

It is publicly archived in the official GitHub repository and backed up on multiple cloud services.

The archive includes:

- this declaration in PDF format
- the .ots OpenTimestamps file
- original source files prior to hashing

This constitutes proof of the existence of this content at the declared date and supports claims of authorship and priority.

Note: This timestamp serves as a supplementary technical proof and does not replace formal trademark registration or legal protection.

5. Rights and reservation

Any unauthorized use of the names **Kimura** or **KMR** within related technical or creative fields will be regarded as potential infringement.

I reserve the right to pursue formal registration of these names and associated trademarks with relevant institutions (e.g., EUIPO) at any time.

All future uses of the identities **Kimura** and **KMR** in this context are intended to be original, unique, and legally protected.

A formal trademark registration process and enforcement procedures will be required to secure full legal protection and to address any disputes or unauthorized uses.

6. Project identity

KMR™ is a digital and modular development lab initiated in July 2025 by **Kimura™**.

This name is exclusively associated with:

- personal and public development projects
- software, electronics, automation, documentation, and branding

Signed: **Kimura**

Founder and Author

Initiated: 31 July 2025
